EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: Figure 11 has been selected to be printed on the face of the patent, and has been amended by the Examiner to include and verbally explain some of the most important features and elements of the claimed invention.

The following amendment that is made to correct an typo error was approved by Steve Rosen on 6/9/2005:

Claim 1 has been amended as follows: on l. 22 of the claim "valves, and" has been changed to -- valves. -- Consequently, lines 23-28 have been deleted.

Drawings

2. New corrected drawing of Figure 11 in compliance with 37 CFR 1.121(d) are required in this application because Figure 11 has been amended by the Examiner. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Allowable Subject Matter

3. Claims 1-17 are allowed.

4. The following is an examiner's statement of reasons for allowance: prior art does not teach in combination with the other limitations of the independent claims a fuel injector comprising first and second valves being operable to open at different first and second crack open pressures respectively. Note that the valves as claimed are part (subcombination) of the injector.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Stotts 5598696.
